Childrens Health

The doctors consulting from East Sydney Doctors focus on the health and well-being of children in the community. These experienced practitioners are committed to offering comprehensive and compassionate care for your child, from antenatal shared care during pregnancy to infancy and throughout early childhood.

It is important to have regular check-ups and childhood vaccinations. As your child grows, your doctor can provide guidance, address any concerns, and promptly assess your child if any illness arises, and support children as they transition into their teenage years.

Children's Health Services Include:

- **Child Check-ups:** Regular check-ups to monitor growth, development, and overall health from infancy through adolescence.
- **Sick Visits:** Prompt evaluation and treatment for common childhood illnesses such as colds, flu, ear infections, and stomach bugs.
- **Immunisations:** Vaccinations to protect children against preventable diseases according to the Australian National Immunisation Program Schedule.
- **Developmental Assessments:** Screening for developmental milestones and early detection of any developmental delays or concerns.
- **Management of Chronic Conditions:** Ongoing care and support for children with chronic conditions such as asthma, allergies, diabetes, and ADHD.
- **Nutrition and Lifestyle Guidance:** Advice on healthy eating habits, nutrition, and lifestyle choices to promote optimal growth and development.
- **Behavioral and Mental Health Support:** Assessment and management of behavioral and emotional issues such as anxiety, depression, ADHD, and behavioral problems.
